Array of 4 on a tabbed panel

NOTES:
1. This assembly is ROHS compliant.
2. Before installing any components check all boards using an ohm meter for shorts between all power and ground nodes.
3. All polarized caps are marked with a plus (+) sign closest to the positive node.
4. Diodes are marked with a heavy bar and/or a K on the cathode end.
5. All holes of uninstalled components shall be kept free of solder.
6. If modifications are performed on this board, the cleaning process should be confined to the modified areas. Do not subject the board to any all-over cleaning processes.
7. For Parts List use TRNT-EL-04-4089 latest revision.
